TASTING COMMENTS

Golden yellow color, with golden and amber highlights. A bright and clear color.

The nose is lively and very expressive. Orange aromatic complexity is intense, tasty and crisp. The second nose develops on slightly acid notes such as bergamot. The orange flavor is rich and reveals a lovely note of freshness that makes this liquor attractive.

On the palate, the attack is soft, but frank. The aromas of orange and zest are clean, expressive, but bringing a touch of complexity. All supported by a nice tangy note without excessive sweet note.

Maxime Trijol Orange is a perfect balance between Cognac and Orange. The assembly of these two worlds bring new fun for both elegant and accessible. The harmony between the flavors and aromas lead to the pleasure to share a moment, all without excess.
